

GYANANJAY SAHOO

Java Full Stack Developer | Backend & AI Integration | portfolio

gyananjaysahoo8@gmail.com | +91-8984096402 | github.com/Gyananjay600 | Bhubaneswar, Odisha

OBJECTIVE

Backend-focused Java developer with hands-on experience building REST APIs, secure authentication systems, and an AI-integrated diagnostic application (Spring AI + LLM). Seeking a Forward Deployed Engineer role where I can apply my API integration, system design, and applied-AI experience to solve client-facing technical problems and bridge engineering with real-world use cases.

TECHNICAL SKILLS

PROGRAMMING	Core Java, Advanced Java, SQL, JavaScript, Python (Basic)
BACKEND DEVELOPMENT	Spring Boot, Spring MVC, Spring Data JPA, Hibernate, JDBC, Spring Security, JWT Authentication
AI ENGINEERING	Spring AI, LangChain, LangGraph, LLM Integration (Groq API / Llama 3), Prompt Engineering, AI Workflow Automation, AI Agents
APIs & SYS. INTEGRATION	REST API Development, API Integration, Third-Party API Integration, JSON, Postman, Web Services
CLOUD & DEVOPS	Docker, Docker Compose, Basic Containerization, Docker Networking, Docker Volumes, Basics of Google Cloud Platform
DATABASE	MySQL, SQL Query Design, Data Modeling, JDBC Connectivity
FRONTEND	HTML5, CSS3, JavaScript, React.js
SOFTWARE ENGINEERING	Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Multithreading, MVC Architecture, Debugging, Problem Solving
DEVELOPMENT PRACTICE	Software Development Life Cycle (SDLC), Agile Methodology, Requirement Analysis, System Design Basics
TOOLS	Git, GitHub, IntelliJ IDEA, VS Code, Maven, Postman

PROJECTS

Auto Guard AI — Intelligent Vehicle Maintenance Advisor *Spring Boot, Spring AI, Groq API (Llama 3), MySQL*

- Built an AI-integrated system that analyzes vehicle sensor data and predicts maintenance risk, combining a deterministic risk-classification engine with LLM-generated natural-language diagnostics via Spring AI + Groq — the same retrieve-then-generate pattern used in RAG-style applications.
- Designed 7 JPA entities for sensor and vehicle-health data, plus scheduled data simulation for continuous risk scoring.
- Implemented role-based access (Owner/Engineer/Admin) using Spring Security; built a Thymeleaf + Chart.js dashboard for visualizing trends.

Gyana Social — Backend System *Spring Boot, JWT, MySQL*

- Built and integrated REST APIs for authentication and user-related functionality, tested end-to-end with Postman.
- Implemented JWT-based authentication and authorization; designed a scalable backend architecture following REST best practices.

Mini Banking Management System *Java SE, MySQL 8.0, JDBC, MVC*

- Developed a console-based banking system handling account management, deposits, withdrawals, and fund transfers.
- Ensured ACID-compliant transactions with validation, error handling, and consistent concurrent-operation handling.

INTERNSHIP EXPERIENCE

Java Development Intern — TechnoHacks Solutions Pvt. Ltd. *2025 (1 Month)*

- Worked on Java-based application development and backend logic implementation; wrote clean, structured, maintainable code.

Core Java Intern — CTTC, Bhubaneswar *June 2024*

- Developed console-based applications using OOP concepts; implemented multithreading to improve execution efficiency.
- Strengthened debugging and exception-handling skills through hands-on troubleshooting.

Java Full Stack – Seeree Services Private Limited. *9th Feb 2026 to 18th April 2026*

- Developed backend applications using Java, Spring Boot, Spring MVC, and Spring Data JPA, following REST API design principles and MVC architecture.
- Worked with JDBC and Hibernate/Spring Data JPA for database connectivity and ORM-based data handling with MySQL.

EDUCATION

B.Tech in Computer Science and Engineering — Gandhi Institute of Excellent Technocrats, Bhubaneswar

2023 – 2027 | CGPA: 8.42 / 10

Higher Secondary (Science) — Simulia College, Balasore, CHSE Odisha

2021 – 2023 | 64%

Matriculation — R.N. High School, Balasore, BSE Odisha

2021 | 74.5%

ACHIEVEMENTS

- Secured 2nd Prize in ModelFiesta (2025 & 2026).
- Participated in Smart India Hackathon (SIH).
- Participated in the 36-Hour National Level Hackathon
- Participated in NCCENGT-2025 at GIET, Ghangapatna, Bhubaneswar
